

Programma NOV-Jaarcongres 2019 - Innovations

Donderdag 24 januari 2019

Limousin 2

Registration

08:30 Welcome and coffee

Fundamental new ideas shaping the future of orthopedics. Chairmen dr. Gie Auw Yang and dr. ing. Sebastiaan van de Groes

- 09:00** Impact of body fat distribution and sarcopenia on the overall survival in patients with bone metastases receiving radiotherapy treatment: a prospective cohort study
Bart Pielkenrood, PhD-student UMC Utrecht
- 09:10** Stagering van een Ewing sarcoom; 18FDG-PET/CT als nieuwe gouden standaard voor detectie van beenmergmetastasen?
Tim Gralike, Wetenschapsstudent orthopedie
- 09:20** Een TWIST1 RNA-probe kan worden gebruikt om levende mesenchymale stamcellen met een hoge proliferatie te selecteren (nominated for Rik Huiskes award)
Chantal Voskamp, Onderzoeker in opleiding Erasmus MC
- 09:30** Incidence and predictors of (occult) posterior malleolar fractures associated with tibial shaft fractures. Retrospective diagnostic imaging analysis of a prospective cohort of 164 patients
Ran Hendrickx, PhD-student orthopedie en traumachirurgie Amsterdam UMC/Flinders Medical Centre, Adelaide
- 09:40** Changes in urine N-and C-terminal crosslinking telopeptides of type I and II collagens, serum aggrecan ARGS neoepitope and cytokines over 2 years after an anterior cruciate ligament rupture (nominated for Rik Huiskes award)
Frans Hagemans, AIOS orthopedie Spaarne Gasthuis
- 09:50** Development of a machine learning algorithm predicting discharge placement after elective surgery for lumbar spinal stenosis
Paul Ogink, PhD UMC Utrecht
- 10:00** Effect of trochlear dysplasia on patellar tracking and patellofemoral contact pressure
Dr. Ir. Dennis Janssen, Hoofd orthopedisch research lab Radboudumc
- 10:10** Intra-articular injection of triamcinolone acetonide suppresses synovial inflammation but inhibits cartilage regeneration (nominated for Rik Huiskes award)
Dr. Yvonne Bastiaansen-Jenniskens, Universitair docent Erasmus MC
- 10:20** Innovations and basic science in orthopedics
Prof. dr. Rick Sumner (keynote speaker), Professor and chair, cell & molecular medicine Rush University Medical Center
- 10:45** Ceremony Rik Huiskes Award
Hans-André Schuppers, Voorzitter NOV, orthopedisch chirurg OCON

Coffee break

11:00 Coffee break

How good old practice will change under the pressure of innovation. Chairmen dr. Gerald Kraan and dr. Ruth Geuze

- 11:30** The 'Evidence Ecosystem': from innovation to practice
Prof. dr. Per Olav Vandvik (keynote speaker), Professor of medicine
- 11:55** Reduced wound leakage in arthroplasty with modified wound closure; a retrospective cohort study
Ramon Roerdink, Physician assistant Jeroen Bosch Ziekenhuis
- 12:05** Eerste klinische resultaten van het veer-distractie groeisysteem voor scoliose op jonge leeftijd
Sebastiaan Wijdicks, PhD UMC Utrecht
- 12:15** The effect of liner type on migration patterns and patient reported hip function of an innovative uncemented Trabecular Titanium cup up to two years after primary Total Hip Arthroplasty (THA). An RCT with RadioStereometric Analysis (RSA)
Bibian Schäffer, Wetenschapsstagiaire OLVG
- 12:25** Improved pain control and reduced opiate use after TKR using a mobile E-health app (nominated for Van Rens award)
Yvette Pronk, Wetenschapscoördinator ViaSana
- 12:35** High-energy shockwave therapie (ESWT) versus barbotage als de behandeling voor tendinitis calcarea van de rotator cuff
Jan Louwerens, AIOS orthopedie NWZ Alkmaar

Lunch

12:45 Lunch

Officiële opening (Dutch)

- 14:00** Officiële opening NOV-Jaarcongres
Prof. dr. Guus Schrijvers (keynote speaker), Oud-hoogleraar public health en gezondheidseconoom
- 14:25** NOV-Jaarrede
Hans-André Schuppers, Voorzitter NOV, orthopedisch chirurg OCON
- 14:50** Visie hoogleraar registratie orthopedische implantaten 2019-2024
Prof. dr. Wim Schreurs, Orthopedisch chirurg Radboudmc

Scientific change we can believe in. Chairmen dr. Max Reijman and dr. Marc Nieuwenhuijse

- 15:20** Publications in orthopedic journals; real innovations up to plagiarism
Prof. dr. Eugene Carragee (keynote speaker), Orthopedisch chirurg Stanford Medical Centre
- 15:45** Cam morphology of the hip in young male academy football players is more likely to develop before proximal femoral growth plate closure: a prospective study with 5-year follow-up
Pim van Klij, PhD-student Erasmus MC
- 15:55** Improved surgical accuracy for navigated pelvic and sacral primary bone sarcoma resections: a case-control study
Sarah Bosma, Arts-onderzoeker LUMC
- 16:05** Updated prognosis for two years NED or a recurrence six months postoperative? - Dynamic prediction for patients with high-grade soft tissue sarcomas in an arm or leg
Veroniek Springer-van Praag, Arts-onderzoeker LUMC
- 16:15** Recalcification in lytic bone metastases of the spine after radiotherapy
Bart Pielkenrood, PhD-student UMC Utrecht

Tea break

- 16:25** Tea break

ALV

- 17:00** 355e Algemene Ledenvergadering NOV

Exhibition

- 18:15** Drinks at the exhibition

Evening

- 19:15** Evening program

Het wetenschappelijk programma wordt mede mogelijk gemaakt door:
